

Conservation Area Consent for Demolition in a Conservation Area Validation Checklist

What information do I submit with my application?

Introduction

This document should be used by applicants and agents intending to submit a planning application to the Authority. It provides a checklist of the supporting documentation that may be required at the time of submission. The document is intended to be comprehensive in terms of the wide range of developments that it covers and in the majority of cases not all of the criteria will apply. A pre-application meeting with officers should establish the areas of subject matter and level of detail required to support your application.

The checklist will;

- Identify the type and extent of supporting material necessary
- Give you greater certainty
- Help to minimise the likelihood that validation of your submission will be delayed by us having to request more information.

National Requirements¹

Forms

- Completed form (3 copies to be supplied unless the application is submitted electronically)

Plans

Wherever possible the plan shall be scaled to fit onto A4 or A3 size paper. The location plan will clearly identify the land to which the application relates within a red line and within a blue line for any other land owned by the applicant located adjacent to the application site. Three copies need to be supplied unless the application is submitted electronically.
