Dear Geoff

Natural England have no objections to the issuing of a permit to operate a biomass plant at Sandscale Park, Park Road, Barrow-in-Furness – PPC/B/33

We note at Section 4.2 of the Emissions Modelling Assessment that the modelling shows that the PEC is significantly less than the critical level for NO<sub>x</sub>, and therefore impacts at sensitive ecological receptors (Morecambe Bay & Duddon Estuary SOA, Morecambe Bay SAC and Duddon Estuary SSSI) are not considered to be significant.

Yours sincerely

**REDACTED**
